Rain Coats, all styles, colors and prices.

## C. J. BRAREN

### Quality Bread

Chas. F. Heehner, Phg., P.H. M.B., Associate Professor of Materia Medica and Therapeutics University of Toronto, writes—

"After carefully examining and testing a sample of John Bull Malt Flour, I beg to submit—

"That it contains a large amount of nutritive active diastase, the digestive action of which upon the starch present is exerted to such a degree as to yield a baked product rich in dextrine and maltose and hence more easily digested and assimilated than ordinary wheat, biscuit, etc.

"I also observe that the bread in which it is used retains its moisture longer owing to the hygroscopic properties of the constituents mentioned, and further, the prominence of an improved nutty flavor is marked.

"Whether to be used as a direct food or combined with ordinary flour for baking purposes, the John Bull Malt Flour will be found to yield a highly nutritious, readily digested and easily assimilated product."

Every loaf of Barber's Bread contains a percentage of John Bull Malt Flour.

### CLARESHOLM LOCAL NEWS

Harry Sprague has returned after spending the winter in the States.

Frank Messler is preparing to move to his farm at Didsbury the coming week.

Mr. Kinnam of Rockyford was here for sale on Saturday night for a location in the district.

On account of repairs to the engine at the power house, the town was without lights Monday and Tuesday nights.

Bring in everything you have for sale on Saturday next, April 24, to the Economy Livestock.

The Boys' Club had an enjoyable evening in Harrison Hall on Thursday. Refreshments were served and the boys made things hum.

Mrs. John Miller returned on Friday on her trip to Edmonton. She will shortly take another trip to the south to visit her daughter.

A missionary "At Home" was held at the home of Mrs. Dr. McMillan on Thursday afternoon. There was a splendid response and the financial end of it benefited far beyond expectations.

The Women's Guild, St. John's church will hold a sale of home cooking and fancy work in the Parish Hall on Saturday afternoon at 3 o'clock. Afternoon tea will be served. Everyone welcome.

Dr. and Mrs. Frank Stewart arrived in town on Thursday night. Since leaving Medicine Hat they have been visiting in Winnipeg. They are residing in the Ferguson house east of the Presbyterian church.

The heavy snow fall of five inches on Thursday night will again delay sowing operations. Farmers will need to sow heavier than usual to bring the crop on to escape the fall frosts. Usually such a crop is in the ground at this date.

Will Rogers is one of America's foremost humorists. He is the world's champion larrikin. He is the funniest man in motion pictures—and the funniest. See him in "Almost a Husband" at the Rex next Monday and Tuesday.

Many people had requested Manager Edlund of the Rex theater to endeavor to secure the famous Canadian film "Back to God's Country." He has, in accordance with this expressed wish, secured this film for two nights, April 26th and 27th. The public should, and no doubt will, show their appreciation of this enterprise by a most liberal patronage.

### THE AUTO TOUR

Entries for the Canadian Rockies tour are more than satisfactory to the committee at this date, and a still further increase is looked for when the weather is settled. Every town along the line in Alberta and Saskatchewan has been heard from and will be represented by one or more cars.

The tourists will arrive in Calgary on the afternoon of July 2, and Saturday will be spent at the fair grounds viewing the automobile races and other stunts which E. L. Richardson has prepared for the entertainment of the tourists. Mr. Richardson assures us that the racing events scheduled will be better than ever before and will be well worth while coming a long distance to see.

### Stage Women's War Relief Series

Manager Edlund of the Rex has decided to play twelve scenic productions of the Stage Women's War Relief Series. One production every Wednesday and Thursday beginning in one or two weeks' time.

The presentation of this series of scenic productions marks a distinct advance the art of the silent drama.

For years it has been the ambition of producers to secure in pictures the histrionic ability of the world's foremost legitimate stage celebrities, such as David

Belosco, Cyril Maude, Violet Heming, Maclyn Arbuckle, Shelby Hull, Mabel Tariaferro, Constance Lincoln, Dan Fagan, Gail Curce, Tyrone Power, and many others.

Up to the present this had not been accomplished and but for the Stage Women's War Relief we doubt if this notable achievement would ever have been recorded in the silent drama for the entertainment and fulsome enjoyment of the public.

Could the whole story of the effort to assemble these great favorites, cast the players, choose the stories and produce the pictures be entirely written it would constitute one of the most amazing anecdotes of the stage.

It brings to the screen for the first time, many of the most prominent present day stars of the spoken drama, such as those already mentioned, in a series of pictures that will indelibly impress themselves on the minds of the play-loving theater-going public.

This great series of twelve plays will create a never-to-be-forgotten epoch in moving pictures is a foregone conclusion.

The Jewel Union organization feels complimented that it was chosen from among all the users of fine pictures as the medium through which these great stage favorites are presented.

### NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Norman Meechum Lepard, late of Clareholm in the Province of Alberta, Farmer, deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Norman Meechum Lepard who died on the 29th day of January 1920, are required to file with the undersigned by the 15th day of May 1920, full statement duly verified, of their claims and of any securities held by them, and that after that date the Administratrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 10th day of April, 1920.

H. O. Haslam,

Solicitor for the Administratrix,

Clareholm, Alberta.

Approved: E. F. McN.

### THE SEA MUSSEL INDUSTRY

A novel industry which promises rapid expansion and great popularity is no less than the development of a substitute for the ascendant but somewhat costly oyster. This is the sea mussel, found in vast quantities along the low tide mark of the Atlantic coast chiefly in New Brunswick. The Dominion Government, with the co-operation of scientists, has conducted experiments to this end in Western University laboratories and it is now claimed that mussels can be produced commercially and sold profitably at 15 cents per quart, as compared with the \$1.00 per quart around which oyster prices hover.

The mussel is by no means a new article of diet to the people of Canada, and besides being used extensively in coast towns has found its way to the tables of inland cities in Central Canada. Its delivery of flavor and high food value have been much advertised since the establishment of most of government investigation and experiment, and deserve to be much better known. There is yet much to be done in the line of research to ascertain conditions under which production would be most rapid and profitable, and in this end the Council of Industrial and Scientific Research is devoting its efforts.

A survey of the mussel beds of the St. Croix River, which constitutes the boundary between New Brunswick and Maine, has been made, and in this regard Canada has a distinct advantage over the mussel beds to the south of the Dominion. Those of the Hudson's Bay make particularly excellent oysters.

The sea mussel cannot be produced in fresh water on this shore is no possibility of developing an industry in the Great Lakes. It is believed that there are possibilities here for the development of a fresh-water mussel (here and the Dominion Government at the instigation of the Ontario Fisheries Commission is conducting a series of experiments which will probably result in interesting developments.

## Everybody Welcome

We invite you one and all to come and see our new spring goods. No trouble to show goods. Our Shoe Department is just brim full of new lines for spring. There is something for every one of the family—men, women and children. They are nice. They are stylish, and the price is reasonable.

## A Big Western Problem

It is, of course, merely a trite observation, and a statement of what everybody knows, to declare that the Western Prairie Provinces of Canada have many difficult problems to solve in order to promote their maximum growth in population, wealth and general development. Neither time nor space would permit of even a mere recapitulation of these varied and complex problems, not to speak of an intelligent consideration of even a few of them.

Asked to name the first and foremost question demanding attention by the people of the West, and, doubtless, as varied as they would be interesting. Some would say a larger population in order to develop the country, increase the number of people to assist to bear the expense of the public services. Others would urge full provincial control of the natural resources in order that they might be developed for use. Others, again, would lay emphasis upon the assimilation of the foreign-born into a broad and true Canadian citizenship. Better schools and a more general education for all classes would be advocated. Some would say tariff reform, or cheaper money, were the main essentials to a betterment of conditions; while others, again, would lay stress upon social, moral and religious issues. Some practical minds would say more branch lines of railways, better roads, and a general improvement in all means of transportation.

And to a greater or less degree all these things are necessary to the welfare, growth and prosperity of the Prairie Provinces. There can be no question about that. But at the present time there looms up a problem, the solution of which would first appear to be necessary without loss of time if many of the other questions are to be satisfactorily settled. And in some respects it is the most difficult of all our problems.

We refer to the problem of solving the difficulties, we might almost say the disastrous conditions, confronting thousands of settlers by reason of the drought which has affected sections of the West during the last three years. So long as these conditions continue a black eye is given to immigration to this country because the land advertisement thus given western Canada abroad has an adverse effect on the securing of that larger population we need and must have. It affects the credit of our people, stops railway development, and business and imposes heavy burdens upon municipalities and governments. Something better than the provision of temporary relief to the direct sufferers must be found.

Those who are perhaps best qualified to judge, believe that the solution to be found in a radical change in farming methods in these districts, and the substitution of other crops, is at least, for the all grain crops

which have, for the most part, been attempted in the past. It is asserted that even in these drought afflicted areas a few farmers have been able to succeed, where the majority have failed, by reason of the fact that they followed other methods.

In the years of drought, there was not only failure of grain crops, but also of grass, with the result that the soil in neither food for man nor feed for stock. On the other hand, some farmers were successful even in these years of lack of moisture in raising green corn and other kinds of feed for stock when even the grasses failed. What they succeeded in doing, their neighbors could also do.

It is suggested, therefore, and wisely it would seem, that steps should be taken to bring the actual experience of these men, and the methods followed by them, to the knowledge of the people generally in the districts affected, in order that they might be brought to bear in the solution of these problems.

It is also being urged that the combined knowledge of the agricultural experts of the country should be brought to bear in an effort to solve this problem. These experts and scientific agriculturists on experimental farms and elsewhere have evolved earlier ripening varieties of grain in order to escape the effects of the drought. Along this line they have met with splendid success and the loss from frost, which formerly was a constant dread of the farmer, has been enormously decreased. Has the time not arrived when the energies of these men should be directed into the channel of endeavoring to evolve a drought-resisting variety of wheat and other grains?

There is no country more seriously affected with drought than western Canada, which, nevertheless, are succeeding agriculturally. Surely these people, who have been so long accustomed to the fact that grain can be secured to be tested experimentally here. Something must be done, and done soon, to create new conditions in the areas referred to, or else they will have to be abandoned as unfitted for agricultural purposes, with all that will mean, not only in individual loss to the people there, but to the whole country. It is impossible to go on looking against what "next year" will yield a crop, and, in the event of disappointment reliance upon the government for food, fuel, clothing and next season's seed, and the removal of stock to greener pastures. The country has about reached the end of this unsatisfactory policy; something more permanent, more constructive, that will put new hope into men's hearts, must be forthcoming.

Old Garments New  
When Diamond Dye

Shabby, Faded, Old Apparel Turns  
Fresh and Colorful

Don't worry about perfect results. Use "Diamond Dye," guaranteed to give a new, rich, lustrous color to any fabric, whether it be wool, silk, linen, cotton or mixed goods.—dresses, coats, stockings or hats, children's clothes, coats, leather, draperies, coverings—everything.

The Direction Book with each package tells how to use Diamond Dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

**Completing Hudson Bay Line**  
The Winnipeg board of trade has been notified by the federal government that it will cost \$4,000,000 to complete the Hudson Bay Railway. Up to the present, \$32 miles of the line have been built and about 90 miles of track are required to bring the road to its ocean terminus at Port of Spain.

The Dominion government is not yet in a position to say how much money it will be able to devote to the Bay line this year. The West is pressing for completion.

One Trial  
of Grape-Nuts

will do more than many words to convince you of the goodness of this wheat and barley food.

But it's worth saying that Grape-Nuts contains all the nutriment of the grains, is ready to eat, requires no sugar and there's no waste.

Grape-Nuts is a Builder

Our Senses Are  
Untrustworthy

Scientific Development Is Making Rapid Strides in These Modern Days

Though many disagree with the views held by Sir Oliver Lodge as to the life to come, few will challenge his right to be considered among the select few who have changed radically the views of men held as to the physical side of the universe. Any thing he cares to say as to electromagnetism, the ether, is worthy of attention, and must furnish food for reflection. A few days since, in the course of a lecture to an audience which filled the capacious Carnegie Hall in New York, he said, supping a small wooden table. "This appears to be solid," and waving his arm in the air, "this appears to be empty; it is exactly opposite. You may not believe it to be solid, but it is true."

Such men as Soddy, Rutherford, Joliot, Thomson, and many other physicists, tell us that our senses, cultivated but to serve certain vital uses, deceive us in everything which does not touch on the daily needs of our present existence. They speak with certainty on the electrical basis of matter; tell of a mysterious ether, which permeates all, yet imperceptible to our senses; they show that our notions of such things as heat, light and sound are founded on false facts, which are fundamentally false and hence misleading, until the layman finds his head reeling and his confidence in the knowledge he had acquired as a lad slipping away.

The discovery of radium has strengthened the standing of geology, because it permits us a vast extended time-scale. The earth is no longer regarded as a world gradually growing in power. It is in the possession of radium a source of heat which will last, not for a mere million years, but probably for tens of thousands of millions of years. It is in the possession of radium the planet will come from too high an internal temperature, rather than from one too low. In other words, the world is more likely to finish in explosion than as a dry, frozen body, as our forefathers believed. It is such a statement, with all that will mean, not only in individual loss to the people there, but to the whole country. It is impossible to go on looking against what "next year" will yield a crop, and, in the event of disappointment reliance upon the government for food, fuel, clothing and next season's seed, and the removal of stock to greener pastures.

The country has about reached the end of this unsatisfactory policy; something more permanent, more constructive, that will put new hope into men's hearts, must be forthcoming.

JOY AND GLADNESS  
FOR THE CHILDREN

Every child—whether it be poor or rich is entitled to joy and gladness. Health is the brightness of all and health, clinging to the body, makes a healthy baby a happy baby. It is the baby's nature to be happy—not to be sad. Only the baby who is cross, the wet child is a joy to the home—only the baby who drives others away from the household is a joy to the mother. But mothers there is no need of your little one being sickly. Regulate the baby's bowels and sweeten stomach with a gentle but thorough laxative and baby will soon be well and happy again. Thousands of mothers have prospered this through the use of Baby's Own Tablets—and baby's smile is the reward. Give Baby's Own Tablets to your baby and make him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Wm. L. Williams, Medicine Co., Brooklyn, Cts.

## Wireless for Irish Cities

Cutting of Telegraph and Telephone Wires Causing Trouble in Ireland. In consequence of the frequency with which telephone and telegraph wires in Ireland are being cut, the government has decided on an extensive use of wireless telegraphy there, says the Daily Mail.

Naval signals are being contemplated to start the system and the navy proposes that portable telephones with a radius of about 50 miles be being employed in transmitting messages from one police station to another or between adjacent towns. It is asserted that the system has proved satisfactory.

The Professor: I don't see the sense in the wife being so anxious to buy a kimono. Why, she couldn't play the bloomin' instrument if she'd got it.

Minard's Liniment Cures Burns, Etc.

## HEAVY WORK

Your horses pull heavy loads over all kinds of roads—make their work easy—save your horses and wagons.

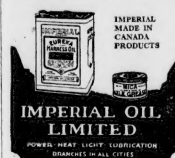

Imperial Mica Axle  
Grease

prevents friction in the hub. As the mica works into the pores of the axle and hub, the rough surfaces are smoothed and a perfect filling of mica. The grease on the axle surface is not washed off by lubrication. Sold in sizes from a one pound tin to a barrel.

Imperial Eureka  
Harness Oil

makes leather strong, pliable and waterproof. Prevents cracking and breaking of harness—cannot become rancid because pure mineral oil. Gives leather a rich black, lasting finish.

Sold in pint, quart, half-gallon, gallon and four-gallon sealed cans, half-barrels and barrels.

## Protecting the Armenians

Public Will Not Tolerate Abandonment of the Armenians to Destruction

The only possible solution appears to be to make France the mandatory power for Cilicia, if she will undertake the task. Cilicia used to be known as Lesser Armenia, and the remainder of its Armenian inhabitants must be protected. In the Sykes-Picot agreement Cilicia was included in the French "zone," while the Treaty of London gave France much more extensive authority in Anatolia. As for Armenia proper, it is understood that the plan is to link up the Turkish villages of Bitlis, Van, and Erzerum with the line to the Armenian republic of Erivan, in Transcaucasia. With sufficient help, such an Armenian State may be able to hold its own. The only thing the public will not tolerate is the abandonment of the Armenians to destruction. Mr. Lloyd George and Mr. Balfour, both of whom were in London in 1918 that "those responsible for the government of this country are not unmindful of their responsibilities to your martyred race." The time has come to recall these responsibilities, and to demand that the British Empire and the Cyprus Convention, and still undischarged. Armenia is threatened with obliteration, though the last word on the Albanian question is not yet said. Armenia must not share a like doom, or what becomes of our crusade for the salvation of the small nations?—From the London Times.

Canadian Flax  
Trade Growing

Proposed to Encourage the Establishment of Spinning Mills in Canada

At a meeting of the Canadian Flax-Growers' Association, held in London, Ontario, recently, the members discussed a plan to encourage the organization. It was pointed out that the acreage under flax has been more than doubled since 1910, and the quality of the Canadian seed and fiber demonstrated not only in Ireland, but all over the world. In view of this it is proposed to encourage the establishment of spinning mills in Canada on a large scale; also to bring experienced weavers from Canada from Ireland and start the industry on a sound basis. The final decision on this matter was left over until the June meeting. Several growers are in favor of having the flax seed graded. They will ask the Dominion government to impose such restrictions on the sale of flax that the quality of all Canadian seed put on the world market will be the best possible.

No matter how little a man believes in religion, he detests irreverence in a woman.

W. N. L. 1210

Exchange Situation  
Impetus for Settlers

Americans Taking Good Advantage Of Rate of Exchange in Buying Farms

One of the results of the present high Canadian exchange has been made apparent during the last few weeks. Americans intending to settle in Western Canada are looking to the United States sooner than they planned and in much larger numbers than was expected. The exchange situation has proved a stimulant to American settlement in Western Canada, because the settlers find they can gain from \$1.25 to \$4 an acre in purchasing land. Many Americans who had purchased farms when exchange was normal, and had money in the banks, have taken advantage of the low quotation of Canada's money, and cleared off their deferred payments, making a large saving.

Americans of means are paying cash for their farms. With the rate of exchange as it is today, the saving on a quarter-section of land at \$35 an acre is about \$840, which is quite an item on a \$5,000 settlement, while the ready money thus put into circulation is having a beneficial effect throughout the west, both on investments and general trade.

Minard's Liniment Relieves Neuralgia.

Predicts Rush Into  
Peace River Area

Oil Fields Greatest in World Says

Lieut.-Col. J. K. Cornwall  
Ottawa.—The summer of 1920 promises to see the greatest rush into the Peace River country that has ever been seen in any section of Canada, in the history of the Dominion. Lieut.-Col. J. K. Cornwall, who is here conferring with government departments in connection with matters of interest to the north country. Col. Cornwall, probably the best known figure in Peace River, and a trapper and trader of 25 years' activities in the north, has been attending the fair at Montreal, where prices soared to a point that placed the fur industry of Peace River on a new high pedestal.

"The Peace River this year," said the two places.

"Sweet Thing! Well, you shouldn't have gone into those places."

ONLY TABLETS MARKED  
"BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Rheumatism, Aches, package which contains complete directions, Lumbago, Neuritis, Neuralgia, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" and the Bayer cross. Aspirin is not taken Aspirin at all. Handy tin boxes containing 10 tablets cost but a few cents. Dissolve Aspirin in an unbroken "Bayer" tablet, also larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Monheim, Germany. It is well known that Aspirin means Bayer Manufacturing, to mean the public against imitations. The value of Aspirin will be stamped with their general trade mark, the "Bayer Cross."

## "What Phonograph Shall I Buy?"

How many times, when the subject of purchasing a phonograph or talking machine has come up, have you asked yourself this question?

The Edison tone test answers it for you, completely, convincingly.

Over two million music lovers have been present when this test was being made; and they have realized, as you will realize, that the New Edison alone can actually re-create the human voice and the music of human-played instruments.

It is all-important that you hear

## The NEW EDISON

"The Phonograph with a Soul"

because it is the only instrument that re-creates the singer's voice so faithfully that the human ear cannot distinguish the rendition of the artist from that of the New Edison.

The wise way to choose your phonograph is to have the several makes of phonographs and talking machines sent to your home on trial, where you can make direct comparisons among them, and then decide which one you would like to keep—which, one you think you would enjoy hearing as much five years from now as you do to-day.

Be your own salesman. Sell a phonograph to yourself. We will gladly send a New Edison to your home for the purpose, without obligation on your part.

# U.S. Censored For Interference In Irish Question

London.—The Third States was hardly without glories by Premier Lloyd George and Sir Edward Carson, the latter in the debate in the House of Commons on the second reading of the Irish bill. The premier said it was action such as that taken by the United States senate in adopting the Irish resolution that had fostered recession.

"De Valera is putting forth the same views in the same words that Jefferson Davis used," the premier declared, and added that such a movement has led to civil war.

"We are doing nothing more than the United States claims for themselves," he continued, "and will stand no less."

Sir Edward Carson, in opening the debate, said he believed that the Irish murderers were committed "not by my countrymen but by ill-conditioned Americans, misled by Sinn Féin propaganda," he exclaimed, pointing to the government, "you are doing nothing to counteract."

"Do you suppose that if I worked against the bill and it was killed and the 1914 act becomes effective, I could call upon my followers to give their rifles to maintain our position in six Ulster counties, when this bill gives us the right to control these counties?" asked Sir Edward Carson.

He declared that Mr. Asquith, by his proposals for amending the 1914 measure, "killed his own child," which was so disastrous to Ulster.

He promised that Ulster would be the best it could under the two-parliament plan.

Premier Lloyd George also attacked the Asquith plan, saying that it was working to the proclamation of an Irish republic and secession.

Wm. Adamson, labor leader, said he was opposed to the bill and that his followers had adhered to his decision in a vote, but he did not outline any definite plan for a solution.

He stated his personal views, which he said, should not be confused with the views of his party, as he had not placed them before the leaders of the House. He was for one parliament with full powers for everything, except defence and foreign affairs, and for immediately calling a constituent assembly.

The second reading of the bill was passed by 348 to 94. Those who voted against it included Mr. Asquith and his following among the Independent Liberals, the Irish Nationalists and a few Unionists.

The attendance for the vote was the largest during the present session.

**Plot to Murder Carson**  
Montreal.—The Montreal Star publishes the following cable from London:

"During the debate on the Irish Home Rule bill, Sir Edward Carson, the Ulster leader, said he had been warned by Scotland Yard that Clan-Gael members had landed from the United States with an avowed intention of assassinating him."

**To Represent Italy**  
Copenhagen.—General Albertini, former minister of war, has been appointed to represent Italy on the inter-parliamentary commission at Constantinople.

## Asquith Makes An Attack on Home Rule Bill

London.—Herbert H. Asquith, former premier and advocate of a one-parliament Ireland, took issue in the House of Commons on the home rule question with Premier Lloyd George, whose plan for two parliaments for Ireland Mr. Asquith has characterized as absolutely unacceptable.

Particular interest is centered in the contest between the premier and former premier, both of whom aspire to the leadership of the liberal party. But as yet they have not come to grips.

The fact that agitation is so widespread in Ireland at the present time lends additional force to the ultimate outcome of the bill now before the House, but the real fight will be on until the committee stage has been reached.

## Threaten Strike in Germany

**Labor Unions of Essen Will Call A General Strike Unless All Demands Granted**

Rotterdam.—A despatch to the Rotterdam Courant from Essen says the representatives of the labor unions and of the three Socialist parties have issued an ultimatum to the government threatening a general strike in all Germany unless their demands are granted.

The demands are: First, binding the government to recognition of the resolutions passed at Bielefeld; second, abolition of military measures contrary to the resolutions; and third, the release of all prisoners of war and carrying forty-eight hours in which to grant out the Bielefeld armistice terms.

## Only Rumors That Wheat Is Hauled to U.S.

**Acting Premier Declares Government Cannot Act Without Proper**

Ottawa.—Answering Mrs. MacNutt, Saltcoats, in the Commons, Sir George Foster stated that the government had heard of no such rumors. He said that the government was not in a position to act without proper information.

He said that the government was not in a position to act without proper information. He said that the government was not in a position to act without proper information.

He said that the government was not in a position to act without proper information. He said that the government was not in a position to act without proper information.

## Cost of Hudson Bay Road

**Over Three Hundred Miles of Steel Have Been Laid On The Line**

Ottawa.—In reply to Mr. Campbell in the House, the minister of railways said that 322 miles of steel had been laid on the Hudson Bay Railway. There were more miles still to be laid.

The total expenditures of the railway at the end of the last fiscal year was \$1,830,860 and on the terminals \$6,344,699.

The estimated cost of completing the track-laying into Port Nelson was \$1,750,000, but to complete the railway would require \$4,000,000.

**Signals From Mars**  
Paris.—Belief that the strange signals picked up by wireless stations recently came from the planet Mars, is expressed by Camille Flammarion, the famous astronomer. He thinks inter-stellar communication may yet become a realized fact, but he is inclined to believe it will be accomplished by the use of some magnetic force which is not as yet discovered.

**French Loan to Be Flouted in Canada**  
Paris.—The Municipal Council of Paris voted to flout a loan of \$30,000,000 to Canada, repayable in ten years. The proceeds will be used to purchase merchandise in Canada.

**Indians in Canada**  
Ottawa.—Lucien Cannon, Dorchester, was informed that there are 405,998 Indians in Canada; there are 1,625 reserves, and a grand total of 26,101 reserves and on their reserves.

**For the moment proceedings**  
fail to arouse much excitement. The arguments take two directions, from the opponents of the bill that it is unfair to the press the measure is a certain to be controversially rejected by the Irish people, and from the supporters of the bill, that to grant self-determination under existing conditions would be equivalent to consenting to the proclamation of an Irish republic, which no sane government could permit.

After the principal speakers, Mr. Asquith and Andrew Bonar Law, the debate was continued by Mr. Asquith. He hoped that Sir Edward Carson, the Ulster Unionist leader, would speak was not fulfilled.

## Urges Completion Of Hudson Bay Road

**Minister of Railways Promised Western Members That Side Would Be Discussed**

Ottawa.—Arguing that if the government could set aside \$5,000,000 for the construction of the Welland Canal, it can at least set aside \$2,000,000 for the completion of the Hudson Bay Railway, a score or more of western members held a conference with Hon. A. D. Reid, minister of railways, and Hon. A. L. Sifton, secretary of state. The wish of the delegation would be met this year, the minister of railways and canals promised to bring the matter up in the house for a full and frank discussion on the relative merits of both propositions named. The delegation again urged that the Hudson Bay road was a national project and should be treated entirely as such.

In reply to an argument by the minister that the Welland Canal was deteriorating because of non-compliance, the delegates pointed out that exactly the same argument applied to the Hudson Bay road. They also pointed out that \$777,000 had been set aside for the Trent Canal scheme, which project the delegation felt as merely a "pleasure ditch."

Going back to the Welland Canal question, it was contended that this road would be completed and not until the St. Lawrence canal scheme was finished, and as yet it had not got past the survey stage.

## Settlement of Palestine

**Jews and Arabs to Co-operate in Reconstruction of the Holy Land**

New York.—Specially selected Zionist organizations of Palestine in cooperation of Jews and Arabs in reconstruction of the Holy Land is expected as the result of the Palestine Jewry's request for Arab aid, according to announcement here by the Zionist organization of Palestine.

The organization received a despatch from the Zionist Commission in Palestine stating that the Arab representative body of Palestine Jewry, had issued a manifesto to the Arabs explaining that Zionist aspirations in the Holy Land "will not exploit or injure the Arabic population. But will provide of mutual benefit to all," and asking their co-operation.

## Cleveland to Chicago in Two Hours

Cleveland.—The speed record for mail by the air line between Cleveland and Chicago was broken today when Pilot James H. Knight covered the 340 miles in this city in two hours and twenty minutes.

The previous record was two hours and twelve minutes, was also held by Knight, made several years ago.

**Bolsheviks Lose Heavily**  
Warsaw.—Russian Bolshevik forces which have been attacking the Polish front in Poland, have suffered severe losses, and at points have been withdrawn to the eastward, says an official statement issued at army headquarters. Polish troops have pursued the enemy, and have recovered the territory which was lost in the savage fighting of last week, it is said.

**Will Distribute Canadian Guns**  
Ottawa.—The guns which are being landed at Halifax will be distributed to the active militia all over Canada, said General Ashton, adjutant-general at militia headquarters in Canada. Canada sent her artillery over during the war and it is being returned. It is required to equip artillery units throughout the Dominion.

**French Loan to Be Flouted in Canada**  
Paris.—The Municipal Council of Paris voted to flout a loan of \$30,000,000 to Canada, repayable in ten years. The proceeds will be used to purchase merchandise in Canada.

**Indians in Canada**  
Ottawa.—Lucien Cannon, Dorchester, was informed that there are 405,998 Indians in Canada; there are 1,625 reserves, and a grand total of 26,101 reserves and on their reserves.

**For the moment proceedings**  
fail to arouse much excitement. ## Holland Retains Ex-Kaiser

**Reply With Regard to Former German Emperor Agreed to By Allies**

London.—The allied powers have accepted Holland's last note regarding the former German emperor, according to an Amsterdam despatch to the Daily Mail.

The Dutch government on March 10 for the second time refused to deliver the former emperor to the allies for trial. This determination was set forth in a note to the British premier, who, however, declared the Dutch government would take all necessary measures to minimize the liberty of Wilhelm and prevent him from endangering the peace of the world.

The communication stated that preparations to this end would be taken "in the spot." It was assumed that this meant a close guard over the former kaiser and a strict censorship would be instituted while Wilhelm occupied his estate at Doorn.

## To Help Convince Men

**Winning Labor Men to Discuss Means of Relieving Strikers**

Winnipeg.—More than 700 delegates, representing Winnipeg labor organizations, will meet April 21 to discuss ways and means to effect the release of convicted strike leaders, James Law, secretary of the defence committee, announced.

It is possible that representatives of labor organizations from other cities will attend the convention, Mr. Law said. Many inquiries have been received from outside points as to what conditions intend to do.

The defence committee are now caring for the dependents of the convicted leaders. These dependents total 20.

## Shorter Hours for Nurses

Winnipeg.—An eight-hour day, 56 hours a week, has been instituted for nurses in training at the General Hospital. This is the first of the reforms in the training school, and if possible, include an afternoon work off. There is a shortage of applicants for training for nurses, and these changes are planned to make conditions of training more attractive as a step in the campaign for students.

## Fast Time Again

**Confusion Said to Result From Adoption of Summer Time**

Toronto.—There is considerable confusion in Canada, border cities and towns, and generally throughout Canada in industries having direct connection with the railroads, following daylight saving time being inaugurated in New York and other border states. The mix-up will probably continue, or less, during the month of April.

On May 2, the cities of Montreal, Quebec and Ottawa will adopt the daylight saving time locally. Falls, Ont., and other frontier points are running on the new time already.

It is expected that the federal or any of the provincial governments of Canada will take up daylight saving this year as a Dominion or provincial measure. The railways have so far made no definite move in the matter.

## Turks Destroy Railway Bridge

Constantinople.—The Nationalists have destroyed an important railway bridge at Bilejik, on the line between Constantinople and Aleppo. The British are now restoring it. The destruction of the bridge isolated a small section of Baghdad, but is expected they will come out safely in a few days.

## Lebanon Declares Independence

Washington.—Lebanon, in Asiatic Turkey, has declared its independence of Prince Feisal's government. The state department was advised by the United States consulate at Beirut. A flag similar to the French tricolor, but with the Cedar prominently displayed was chosen and a constitution is being drawn up.

## Big Increase in Customs

Ottawa.—An increase of more than \$100,000 in customs revenue over last year is reported by J. H. Beaman, collector of customs for this city, in his report covering the year just ended.

## Hoover for President

San Francisco.—Herbert Hoover has telegraphed to the Hoegre Republican club of California that he would accept the Republican nomination for President '24 if it is felt that the issues necessitate it and it is demanded of me."

W. N. U. 1210

# Will declare State of War To Be at End

## Price of Flour May Advance

**Action of Wheat Board in Continuing Restriction Is Said to Be**

Ottawa.—A material advance in the price of flour is indicated in an announcement made here on behalf of Canadian millers by By George A. McDonald, representing the Quaker Oats Company and head of a delegation of representative millers which waited on the government to discuss the serious situation which Canadian millers are facing as a result of the action of the Canadian wheat board in continuing the restriction in the price of flour on the Canadian market, and the lack of export markets for Canadian flour.

The increase will be necessary to meet the increased cost of manufacture. The scarcity of mill feeds in Canada is directly traceable to the lack of a market for flour and to consequent decrease in the volume of domestic milling. The millers stated they have asked the government to modify the regulations of the wheat board to co-operate with the millers in inducing foreign buyers to take a reasonable proportion of Canadian wheat as flour rather than as wheat.

Yast quantities of flour are said to be available in the United States for export and this complicates the Canadian position.

It is said that more than 4,000 men already have been thrown out of employment by the forced closing down of the mills of which there are about 500 in Canada.

## Germany Will Behave

**Premises France to Live Up to Terms Of Treaty in Regard to Ruhr District**

Paris.—Assurances have been given by the German government that it will not send troops into the Ruhr valley more regular troops than are allowed or declared no more such troops would be sent there without authorization from the allies.

Receiving members of the French press, M. Millerand declared that if the Germans violated the terms of the treaty by sending a strong armed force into the Ruhr district, France would occupy part of the neutral zone whether the allies agreed or not.

## Mayor of Cork

Cork.—At a special meeting of the Cork corporation yesterday, Mayor MacDonagh was elected Lord Mayor. He is a Sinn Féin leader and several times has been deported or imprisoned.

# Big Deficit On National Railways Is Announced

Ottawa.—In a comprehensive speech, Dr. Reid, minister of railways laid before the house the first annual budget of the government railway system since its inauguration. His statement has been fully waited and was followed with interest by all sides of the house.

He gave in detail the financial results of the railways since 1915, and the needs of the road in the future, stated their program for the coming year. It discussed the vital question of the augmented increase in freight rates.

The year's work showed an operating deficit of \$1,000,000 on government railways, \$1,000,000, namely: Canadian Northern, \$600,000; I.C.R. and Transcontinental, \$750,000. To this there has been added \$100,000 for fixed charges and a total deficit for the year (including fixed charges) of \$3,000,000.

In comparison the operating deficit of the roads in 1918 (the Canadian Northern was then in private hands) was \$1,250,000.

Reid, too, had advanced nearly \$1,200,000. But, so Dr. Reid explained to the house, operating expenses had increased from \$84,000,000 to \$100,000,000. The advance in operating expenses were largely due to increases in wages granted under the Meighlin award.

In all this, Dr. Reid did not take the Grand Trunk Pacific of which the government is in possession as receiver) into account. The Grand Trunk Pacific, Dr. Reid intimated, would be the subject of another statement later, but he indicated a total loss to the road last year of \$14,000,000, as follows: Operating loss, \$5,000,000; fixed charges, \$8,500,000.

From deficits Dr. Reid passed to suggest increases in freight rates. It is in this regard, probably that the whole statement will awaken the widest public interest. There was the point to be considered, he said, that any increase of rates on government railways would apply equally well to the Canadian Pacific Railway. Should therefore, Dr. Reid asked, freight rates be generally increased for the particular purpose of enabling the Canadian National railway system to meet its operating expenses and fixed charges? An increase of say 25 percent, in rates would mean an additional charge on the public of \$88,000,000.

"Whether," Dr. Reid pursued, "we shall take \$88,000,000 in increased freight rates out of the people of Canada, or whether we take it out of the pockets of the people of the United States, which I myself am not prepared to take the responsibility of deciding, is a question for the people to decide."

Washington.—Peace with Germany by adoption of a joint resolution declaring the war at an end, was put squarely before congress by representatives of the United States House. Framed by Republican members of the foreign affairs committee and by party leaders, the measure was thrown in the house with as little ceremony as if it had been a bridge bill, but instantly there developed a demand for speedy action. A move to jump it through the house took shape, but Democrats, outspoken in their opposition, finally obtained an agreement to postpone consideration.

While trying to work a resolution calculated to suit all factions of the party, Republican committee men had arranged to call it up immediately.

The resolution introduced by chairman Foster, of the foreign affairs committee, pressed for termination of a state of war as soon as it becomes effective. It provides also for reciprocal trading with Germany under certain reservations and for a repeal of the president's war powers. Germany could be allowed 45 days to notify the president that it has declared a termination of war and waived all claims against the United States, "that it would not have had the right to assert against the United States ratified the Treaty of Versailles."

Upon Germany's failure to send such notification, trading, or the making of loans or credits would be prohibited except with the license of the president.

Some members of the foreign affairs committee, to which the resolution was referred without comment, worked in conference for more than five hours when they were mapped out a measure designed to overcome all party objections. The committee is expected to report to the house.

After chairman Campbell, of the committee, had announced that the resolution would be taken up immediately, the war bill was put on the debate. Democrats objected and asked for more time in which to study and digest the bill.

This resulted in a hasty conference between Republican steering committee and minority leaders, it finally being agreed to defer consideration for a few days.

## Grand Duchess Olga to Reside In Denmark

Constantinople.—The Grand Duchess Olga of Russia, sister of former Emperor Nicholas of Russia has left for Serbia, en route to Denmark, where she will reside permanently. She still firmly believes her brother and his family are alive.

## Grand Duchess Olga to Reside In Denmark

## FARMERS BREED PERCHERONS

The only breed of draft horses ever shipped back to England from Canada for breeding purposes are Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to you—a pleasure to handle.

You will make no mistake in your horse breeding this year if you use a Percheron sire.

Write for INFORMATION AND LITERATURE. Let us put you in touch with the best Canadian Percheron Breeders. Mention this paper when writing.

The Canadian Percheron Horsebreeders' Association  
 William H. Willson, Secretary (Desk A), Calgary, Alberta

## BAR U AND NAMAKA FARM PERCHERONS

The largest stock of the Purebred Percherons in the World. The first Percheron-breeding farm established in Canada. The only firm on the American continent from which British horsemen have selected Percherons to establish stock in Britain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be deceived with the cheap cutters brought in by irresponsible dealers, and sold as purebred. You can buy the best individuals of the best breeding stock in the world in Alberta, but they have been sold in Holland for \$25,000 and \$30,000. In the business of breeding Percherons, you must be able to select the best. You can see their size and shape, and if you cannot choose from the list to suit you, we will give you every assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time—Address:

GEORGE LEAN (Desk B), CALGARY, ALBERTA

## Wantmore Peanut Candy

Roll three cups of sugar in one cup of water until it hardens, when dropped into water, it hardens. Then add one and a half cups of Wantmore Shredded Salted Peanuts, chopped fine. Stir well. Have ready a hot disk or pan freely buttered, and pour candy in. Spread over enough surface to make a thin candy. Be sure and use Wantmore's Wantmore Salted Peanuts, as no other peanuts will make it so good.

## Allies Borrowing From Argentine

For Wheat Purchase  
 Britain, France and Italy Share Loan

Announcement that negotiations for Argentina's loan of \$200,000,000 to Great Britain, France and Italy had been completed was made yesterday by Carlos A. Tornaghi, high commissioner of finance of Argentina, on his arrival from Europe on the steamer Landland.

Great Britain and France each received 40 per cent, and Italy 20 per cent of the loan, which, he said, is for the purpose of financing production of wheat, beef and other foodstuffs in the South American country.

British Bullion Reaches America  
 Gold bullion valued at two millions pounds sterling, to be used in paying interest on Anglo-French bonds due next October, arrived in New York on the steamer Landland.

The assignment, the first to be sent here from Great Britain for this purpose, it was said, was consigned to J. P. Morgan and Company.

## Will Morning Never Come

DOES this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avoid the development of serious nervous troubles.

By improving the quality of the blood and building up the nervous system this food can bring new energy and strength to the whole body.

Send a box, 6 for \$2.50, 12 for \$4.00, to Dr. Chase's Nerve Food, 1000 Broadway, New York, N.Y.

Dr. Chase's Nerve Food

## British Won In Espionage Game

Counter System Completely Paralyzed  
 Hun Spies in England

The London Morning Post published recently an interesting record of Germany's spy system and Great Britain's counter-espionage organization which was so efficient by the summer of 1913 that seven German spies were taken in on their fortnight, paralyzing Germany's schemes to re-establish her spy service in Great Britain. A feather in the cap of the British organization, the capture of two Dutchmen named Janssen and Roos. Suspicions were aroused concerning them on account of numerous telegram messages they despatched from naval grounds to The Hague, apparently ordering cigars. This was remarkable as sailors are not in the habit of ordering cigars, so the senders were arrested.

Janssen and Roos, when examined, claimed they were on behalf of the Dieks company of The Hague. Under further examination they gave contradictory explanations, and the prosecution proved that the address of the Dieks company was the same as the headquarters of the German secret service in London. Next day Roos endeavored to commit suicide by cutting his manacled wrists on the broken glass of a door. The cigar code was found to refer to naval grounds, Habana, meaning light cruisers and Coronas battleships. Janssen and Roos were convicted and shot on the gallows at the Tower. They faced the firing parties with bravery. Neutral spies from Holland and elsewhere had feared that an espionage mission in England was attended with the greatest difficulties. The Newfoundlanders' German only cut cable spies, who pretended to be commercial travelers, and tried to get away before their movements aroused suspicion.

## Minard's Liniment Cures Dandruff.

Black Prospect  
 "Two bags and a hump," said the tourist who was travelling for the first time in Scotland, on a little way-side station. The porter immediately collected the articles and then on board a carriage, "What, what, what," said the passenger, "the way they usually give you here for a tip?"

The porter jerked his thumb over his shoulder. "See you big hump on among the trees?" he asked.

"Yes, but what has that to do with it?"

"Well, that's the workhouse, and it's full of old railway porters."—Argosy.

## She Tells Just Why They Are So Popular

## Dairying in Manitoba

Value of Dairy Products for the Year Amounted to \$14,789,892.51

Manitoba has forty-four creameries, with 22,000 milk and cream shippers, and present indications for increased production of dairy products in the province are exceedingly encouraging. During the year 1919 a number of new silos were erected at different parts of the province. These have been filled with corn, green oats, and peas, which makes a succulent and good cheap feed for milk cows.

The total value of dairy products for the year amounted to \$16,789,892.51. The increased production, combined with the increased price, amounted to \$5,001,719.25. The increase in dairying is more noticeable in the Southern part of the province, where, grain growing has been carried on for 25 or 30 years. There appears to be a marked change towards more mixed farming in this part of Manitoba.

## Former Emperor Starts Moving

Part of former Emperor William's personal baggage has been moved from Beninck Castle, where he is now residing, to Dornum, where he is soon to take up his residence. A large number of trunks, most of which had not been opened since the former emperor's arrival here, have been taken to Dornum in motor trucks. Moving day for Count Holtenhoen is expected to be May 1.

## SPRING IMPURITIES MEAN WEAK BLOOD

A Tonic Medicine Is a Necessity At This Season

Dr. Williams' Pink Pills are an all-year 'round tonic, blood builder and nerve strengthener. They are especially valuable in the spring when the system is clogged with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching.

In the spring one feels tired and weak. Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor. Dr. Williams' Pink Pills improve the appetite, tone the stomach and revitalize the system.

**An oyster attains its full growth in about three years.**

**HOW TO "BE FIT" AT SIXTY**  
 BY DR. LEE HERBERT SMITH.

**As our boys "came marching home," they brought a certain red-blooded doctrine, and showed us the glory of a perfect body. They will show us how to "keep fit," even if we have passed middle life and are beyond the athletic stage.**

**For the tired business man, the man who feels the daily grind and the nightly fatigue, has meager appetite, headaches, nerves unstrung, is gloomy, ending in a soggy brain, try the right way. Get out of bed, open the window, breathe deeply, exercise the army "setting-up," exercise or use dumb bells, until in a warm glow.**

**Breakfast take hot water, and occasionally castor oil or a pleasant laxative made up of May-apple, aloin, jalap, and sold by all druggists as Dr. Pierce's Pleasant Pellets.**

**The excretion of uric acid we are able to effect by eating directed by Dr. Pierce's Food, soft rain or distilled water, six or eight glasses per day, hot water before meals, and obtain Anuric Tablets, double strength, for 50 cents, at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.**

**"Anuric" (anti-uric) is a natural remedy for Dr. Pierce and is much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.**
